List of Novelty Roses for 1933

Prices

each, unless otherwise specified.

Pern.—**Cayetana Stuart**—Growth vigorous and erect, with dark green foliage. Flower large and of good form; colour intense saffron yellow. Very continuous in bloom and good in all seasons.

H.T.—**Comtesse Vandal**—This new and distinct Rose is of an unusual and new colour combination. The bud is reddish copper with reddish golden bronze, which lightens as the bud develops. The inner side of the petal is salmon, graduating to gold at the base; the reverse is deep coral, producing a most unique contrast in colouring. The flower attains an exceptional size with a high centre.

H.T.—**Climbing Etoile de Holland**—A vigorous climbing sport of this well-known and popular variety, which will surely take its place as one of the leading red Climbers.

H.T.—**Colette Clement**—A very pleasing combination of pink and capucine red. The flowers are well formed and freely produced. Good growth and foliage.

Pern.—**Ducquesa de Penazanda**—Growth very vigorous, and branching and blooming with remarkable freedom. Long bud carried on a rigid stem, opening into a very large flower of orange, passing to salmon.

H.T.—**Etoile d'Or**—The petals are enormous, and the shape of the flower is very elegant. The reverse of the petals is golden yellow shaded copper, inside citron yellow. Vigorous growth and very floriferous.

H.T.—**Graaf Godard Bentinck**—A splendid new Rose of the same habit as Covent Garden. Growth very robust, with dark foliage. Blooms are full, large, and of perfect form. Colour, cochineal red.

- H.T.—**Helena Van Vliet**—A new Rambler which will certainly be in great demand when it becomes known. Sturdy, vigorous growth. Colour of a delicate salmon pink. Is practically perpetual flowering, and flowers on the young shoots when cut back. Makes enormous trusses.
- H.T.—**Leon Chenault**—A variety of great merit. The flower is enormous, full, and perfectly formed. Colour tint of Mdme. Abel Chatenay, but deeper salmon. The growth is vigorous and erect, with beautiful foliage. Very floriferous.
- H.T.—**Madame Jules Guerin**—Colour of good golden yellow, passing to cream as the flower develops. Flower large and very full, opening well in all weathers, and highly perfumed. Vigorous growth and bronze green foliage.
- Pern.—**Madame Plumcocq**—The colour is golden yellow with a more brilliant centre. Vigorous growth and bright green foliage. Very free and continuous bloomer.
- Pern.—**Madame Raymond Gaujard** (Olympiad)—This is a variety of exceptional merit in its habit of growth, beauty of flower, and richness of colour. The bud is very long and pointed. The petals are broad, and the bloom is magnificent in every stage of development. The colour is a lustrous dark Oriental scarlet, with a bright golden base, and a marvellous velvety sheen on the petals. This rose will be known in America as "Olympiad."
- H.T.—**Marechal Lyautey**—Vigorous erect growth and dark green foliage. Long bud on rigid peduncle; flower large, full, and perfectly formed, opening well in all weathers. Colour dark brilliant red, and highly perfumed. Highly recommended.
- H.T.—**Mev. Henri Daendels**—Growth vigorous and bushy. Blooms large, well formed, and sweetly scented. Colour in the bud is flesh coloured pink, the open blooms apricot yellow. An improved "Rev. F. Page Roberts."
- Cl. H.T.—**Paul Buatois**—Growth extremely vigorous, with dark green foliage. The flowers are large and full cup formed. The colour is velvety crimson with a yellow base.
- Pern.—**Reveil Dyonais**—Growth very vigorous and continuous in bloom. The bud is golden yellow, rayed carmine. The flower is very large, semi-double cup formed, and of long duration. Inside of petals is suffused cerise on dark golden yellow, outside yellow edged with carmine. A fine decorative variety.
- H.T.—**Souv. de Mme. Chambard**—Vigorous, erect growth and dark green foliage. The flower is large, full, and of ideal form, opening well in all weathers. Colour dark carmine rose, centre rosy salmon suffused with orange. Very novel and beautiful colour.

NEW POLYANTHA ROSES.

Byou—The colour is reddish old rose; growth good, with large flower trusses. A very sweet variety.

Cameo—Colour Oriental or Turkish red. Flowers borne in large and compact trusses. Promises to be one of the best of this class.

Director Hjelm—

Gloire du Midi—The colour is even brighter than "Gloria Mundi," and it retains its colour even under adverse weather conditions. Fiery orange scarlet colour which does not fade. Large flower trusses, with good growth.

Jacques Carroy—Moderate dwarf habit, covered with clusters of fifteen to twenty flowers of paeony form; fine carmine colour, slightly velvety in the middle.

Little Dorrit—Large sprays of neat, well-formed flowers of a coral salmon colour; good bushy growth.

Paris—Clear light red of a uniform colour. One of the best for keeping its true colour outside. Large flower sprays and bushy growth.

Ruby—The name is at the same time the colour description, carmine red growing scarlet. Large flower trusses and good growth.

Salmon Beauty—Orleans type; very beautiful tinge of peach pink emerging to soft salmon. Full-size double flowers and large trusses.

Novelty Roses for 1932

Prices each, unless otherwise specified.

Aroma—Bud large and ovoid; flower large, double, and very lasting and extremely fragrant. Colour crimson, after the style of "Etoile de Holland," but brighter red. Vigorous and bushy growth.

Attraction—Intense bright yellow cadmium, with a shading of orange. Tips of buds touched with carmine. Full, medium size, and lasting. Compact and sturdy growth; free blooming.

Buttercup—Colour deep buttercup yellow. Flowers full and well formed, with pleasing orange fragrance. Pure Hybrid Tea.

Catherine Kordes—Buds long and pointed, opening to large blooms of ideal shape. The colour is a most startling scarlet, with shades of dark crimson. Growth and habit resemble "Caroline Testout."

Hyb. Wich.—**Chaplin's Crimson Glow**—A fine Climber of the same habit as "Paul's Scarlet." Flowers are large and full. Colour deep crimson with white base.

Hyb. Wich.—**Chaplin's Pink**—A very striking pink, maintaining its colour to the last. Large trusses of medium-sized double flowers, which make a grand display in the garden.

Cl. Hyb. Gigantea.—**Climbing Lorraine Lee**—A very vigorous climbing sport of the popular dwarf variety, of a rich terra cotta pink. The winter-flowering qualities of the dwarf variety seemed to be firmly fixed in this new sport, which should render it one of the most valuable winter-flowering Climbers in existence.

Cl. H.T.—**Climbing Lord Charlemont**—The dwarf variety of this well-known rose is so familiar that description is unnecessary. The climbing sport is particularly vigorous and very floriferous. The quality of the bloom is superior to the dwarf variety, and promises to be one of the best scarlet crimson Climbers yet produced.

H.T.—**Climbing Daily Mail Scented**—A climbing sport of "Daily Mail Scented Rose." Rich, deep velvety red with scarlet sheen. Richly scented.

Hyb. Pol.—**D. T. Poulsen**—Brilliant velvety crimson, with white eye. Borne in clusters. Vigorous growth and dark green foliage.

H.T.—**Edith Krause**—Flowers large and full; buds long and pointed. Creamy white colour, with red striped on outside of petal. Growth very strong.

Poly.—**Eglantine**—Flowers carmine with white centre and numerous golden stamens. Large for this class, and borne on stout stems.

H.T.—**Eileen Dorothea**—Bright crimson red shaded deeper red at edges, with pronounced yellow base. Large, pointed bud. Shiny green foliage and vigorous growth.

H.T.—**E. J. Ludding**—Bud coral red; flowers beautiful satin pink with coral red and salmon shades; full, and slightly fragrant. Vigorous growth.

H.T.—**Gartendirektor Nose**—Bud large, long, pointed, and blackish red. Flowers double dark crimson and moderately fragrant. Dark green, glossy foliage and vigorous growth.

H.T.—**Golden Glory**—Flower deep buttercup yellow. The colour is most outstanding, and has a rich and delightful perfume. Should be one of the best yellow Roses in commerce.

H.T.—**Heinrich Wendland**—Colour deep golden yellow on the reverse and a vivid capucine nasturtium red on the inner face of the petal. Pointed buds, opening to perfect large blooms. Vigorous growth and good foliage.

H.T.—**Impress**—Bud large ovoid, cardinal red, shaded orange. Flower double, of salmon cerise suffused with golden sheen. Dark green foliage and vigorous growth.

H.T.—**Lady Hudson**—Large, full flowers and sweetly scented. Colour deep apricot. Upright growth and free branching habit.

H.T.—**Lucille Rand**—Very vigorous growth, and free and continuous flowering. Full blooms of a bright satiny carmine colour. Delicately perfumed.

H.T.—**Lord Stair**—Flowers large, full, high-centred; very lasting and fragrant. Colour velvety scarlet with crimson shading, and borne singly on long, strong stems. Vigorous and upright growth.

Per.—**Mdme. Nicolas Aussel**—Long, pointed bud; flower large, full, and extremely lasting and fragrant. Salmon shaded carmine and ochre, tinted yellow at base. Vigorous growth and profuse bloomer.

Pern.—**Magdalena de Nubiola**—Long, pointed bud; flower large, with high centre. Colour, salmon rose. Bushy growth, with glossy green foliage. Very free and continuous bloomer.

H.T.—**Max Krause**—Flowers are of immense size, full, fine pointed form. Colour beautiful deep reddish orange, changing to lighter tone as bloom ages. Strong, erect growth, and glossy green foliage.

H.T.—**Molly Darragh**—Brilliant bright old rose, gradually deepening to orange yellow centre. An entirely new combination of colours. Flowers large, pointed, and of perfect shape and form. Vigorous and upright growth.

H.T.—**Mrs. George Geary**—Bud very large and long pointed. Flowers large, double, and extremely fragrant. Colour glowing orange cerise shaded cardinal. Continuous bloomer and vigorous growth.

Hyb. Wich.—**New Dawn** (Ever-blooming “Dr. W. van Fleet”)—Flowers medium size and double. Colour blush pink, with dark greenglossy foliage. Vigorous climbing habit.

H.T.—**Portadown Fragrance**—Flowers very large, full, and of perfect formation. Colour, brilliant orange salmon pink, heavily flushed throughout with orange scarlet. Growth vigorous, free, and branching. Strongly perfumed.

H.T.—**Prince Felix of Luxemburg**—Bud large, velvety carmine red. Flowers large, double, and very lasting. Deep carmine red which does not blue. Very vigorous growth and profuse bloomer.
